(ASSOCIATED PRESS TELEGRAM)
Buffalo, Nov. 20.—The over-
whelming defeat of the pacifists by
the supporters of President Samuel
Gompers at the annual convention of
the American Federation of Labor
was followed today by the rapid dis-
posal of many important resolutions
upon which the anti-war party had
been expected to show fight.

Resolutions relating to labor sup-
ply to meet war conditions were
adopted after brief debate. The crea-
tion of an emergency supply com-
mission connected with the federal
department of labor provided for in
a resolution offered by a western de-
legate and the report of the executive
council on the proper distribution of
labor were covered jointly in a re-
port from the resolutions committee.

The committee recommended that
the incoming executive council take
up with the presidents of all affil-
iated organizations and the proper
government officials any question
that may arise in connection with
labor supply during the war. A so-
cialist delegate declared that this was
another effort "to tie the hands of
labor" but Vice President Duncan,
chairman of the committee, replied
that it involved no binding bargain,
merely providing for the face to
face conference that already has

FINNS REFUSE TO
RECOGNIZE ENTENTE
CONSULS AT BORDER

(ASSOCIATED PRESS TELEGRAM)
Stockholm, Nov. 20.—The Ameri-
can, French and British representa-
tives at the border station of Tornea,
opposite Haparanda, have been strip-
ped of all actual power by Finnish
revolutionists, assisted by Russian
soldiers. At the outset the revolution-
ists, refused to recognize any
diplomatic privileges and detained
properly accredited couriers. They
were induced finally to desist from
this attitude, but they are bringing
all conceivable obstructionist tactics
to bear to compel the entente repre-
sentatives to recognize them. Recon-
gnition has been refused flatly.

The revolutionists visited the
Swedish consulate at Tornea and de-
manded that the consul place his au-
tomobile at their disposal and he
himself act as their chauffeur. This
he refused to do. The revolutionists
then tore the Swedish flag from the
consulate and departed, declaring
that they needed no foreign consuls
in Tornea.

Ira Nelson Morris, the American
minister learns from a competent
source that Petrograd was quiet up
to Friday night and that the police
were guarding the various legations
and embassies.

Fighting in Moscow has ceased. It
is reported to have been very san-
guine.

Estimates of the number of dead
reach as high as 4,000.

A general exodus of Americans
from Petrograd and Moscow by way
of Siberia has been arranged for the
next few days.

MORE SURVIVORS
OF ROCHESTER ARE
LANDED IN IRELAND

(ASSOCIATED PRESS TELEGRAM)
London, Nov. 20.—The missing
boat from the American steamship
Rocheester, which was sent to the
bottom by a German submarine No-
vember 2, has just landed at a port
in Ireland, the admiralty announced
today. The boat contained five men
—the only survivors from the origi-
nal boat's crew of 12.

Hope had been abandoned for the
second officer and 11 other men in
a boat from the Rocheester, who at
the time of the arrival of the five
survivors in Ireland, had been miss-
ing for 18 days. Vice Admiral Sims
called the navy department on Sat-
urday that these men had been given
up as lost. The landing of the five
men reduces the Rocheester's death
roll from 19 to 14. Four men died
of exposure in another boat. Two
were killed by the explosion of the
torpedo, and one was drowned.

the eve of organizing an anti-middle-
man association as a result of her
garden experience the past sum-
mer. Her farm just outside of Ben-
ton Harbor produced some of the

bought at forty cents a dozen. Chi-
cago dealers offered her seven cents

laid the matter before Hoover.

ANGLO-AMERICAN
CONFERENCE IS
HELD IN LONDON

London, Nov. 20.—None of the
numerous allied war councils which
have occurred in the past three
years, have occasioned the same in-
terest as today's historic meeting of
the American war mission and the
British war cabinet for tightening
the links that chain the Anglo-Ameri-
can war effort. The scene is the
dingy old residence in Downing
street, which has served the prime
ministers of many generations as
both home and office, and the room
is the council chamber where the
cabinets meet and where the des-
tinies of the empire have been
shaped since the day of the Ameri-
can Revolution.

Lord Reading, the lord chief jus-
tice, will preside with Andrew Bonar
Law, British chancellor of the ex-
chequer, and Oscar F. Crosby, assist-
ant American secretary, at the table
beside him. The military and naval
heads of both governments and of-
ficials representing other depart-
ments of war-work, will be grouped
together. Premier Lloyd George
planned to be present for the pur-
pose of answering questions. The
general work of the meeting consti-
tutes the taking of stock of the re-
sources and needs of both countries
and to some extent of the continental
allies.

A group of reporters and photo-
graphers and curious sightseers were
on the scene early in the day.

AUSTRIAN EMPEROR
VISITS NEWLY WON
TERRAIN IN ITALY

Italian Headquarters in Northern
Italy, Sunday, Nov. 18.—(By the As-
sociated Press.)—Information is
trickling across the Pieve from the
Italians in eastern Venetia, now
overrun by the enemy. According to
these reports, Emperor Charles of
Austria-Hungary, has visited Gor-
izia and the Udine, and King Ferdinand
of Bulgaria, has passed through
Bradica and Palmanova.

The garrison at Udine, the former
Italian headquarters, is said to be
made up of Turkish soldiers, who are
using the church of Santa Maria as
one of their barracks. On the citi-
adel of Udine the invaders have
raised five flags—Austrian, Ger-
man, Bulgarian, Turkish and Greek.
The last flag represents the Greek
division which went over to the Bul-
garians at Kavala and Fort Rupel,
and which some reports put among
the enemy divisions operating on the
Italian front.

Early in September, 1916, the
fourth Greek army corps, with
headquarters at Kavala, surrendered
to the Bulgarians. Its strength was
reported to be 25,000 men, and these
were later transported to Ger-
many.

COX ORDERS PROBE
OF CONGESTION ON
OHIO RAILROADS

Columbus, Nov. 20.—An immedi-
ate investigation of the railroad con-
gestion in Ohio will be made at once
under the direction of Governor Cox
according to an announcement made
today by the governor's office. Gov-
ernor Cox has asked John C. Stubbs,
of Ashland, former traffic manager
of the Harriman lines to conduct
the investigation, ascertain the
causes and suggest remedies.

RUSH DESTROYER
PROGRAM TO KEEP
UP GOOD RECORDApparent Control of U-Boat
Menace Will Not Halt
Present PlansSTILL MAINTAIN SILENCE
AS TO TOTAL NUMBER SUNKFive Sinkings In One Day
is Record Washington
Officials Believe

(ASSOCIATED PRESS TELEGRAM)
Washington, Nov. 29.—The hope-
ful outlook for effectively curbing
the submarine menace, indicated in
the speech of the British premier
yesterday, will serve to increase rather
than lessen the pressure the
Washington government is putting
upon destroyer building and other
anti-submarine measures. This was
indicated by Secretary Daniels today
in refusing to discuss details of the
anti-American vessels have been
playing in the campaign.

The incident used by Lloyd
George to lend force to his statement
that he no longer feared the subma-
rine menace—the fact that five sub-
marines have been sunk in one day
—probably represents the best one-
day's achievement of the anti-subma-
rine forces. Mr. Daniels said it was
the highest figure he had heard in
that regard.

The policy of silence as to the
numbers destroyed or the place of
actions has a definite place in this
program, now seemingly achieving a
measure of success. For this reason
the navy department will continue to
keep strict silence as to what is ac-
complished by American vessels until
these officers think the time has
come to reveal details of the cam-
paign.

U-BOAT PAYS THE PRICE.

Paris, Nov. 20.—A German subma-
rine was destroyed at the time the
French steamship Medie, with a car-
go of munitions, was torpedoed in
the western Mediterranean on Sept.
23, with a loss of 250 lives, says a
dispatch from Algiers to the Journal.
The liner Biskra was proceeding with
a convoy of French and British
steamers, among which was the
Medie, leading the line. The Medie
was torpedoed without warning be-
fore she was able to bring her guns
to bear on the submarine.

Apparently thinking that the
ships were not armed, the submarine
commander brought his boat slowly
to the surface. The Biskra immedi-
ately opened fire at a distance of two
miles. The second shot struck the
submarine forward and low. An ex-
plosion followed. The submarine's
stern shot up. The U-boat plunged
to destruction before the Medie dis-
appeared.

TEUTONS MAY PLAN
CRUSHING BLOW ON
RUMANIAN FRONT

(ASSOCIATED PRESS TELEGRAM)
Copenhagen, Nov. 20.—Reports
from several sources in Germany
bear out the assumption that, tak-
ing advantage of the situation in
Russia, the German government is
making heavy transfers of troops
from the Russian front. Only part
of them appear to be going to
Italy, where the front is too narrow
to permit of the use of great masses,
and a blow by von Hindenburg at
some other point in the way of a
diversion may perhaps be expected.

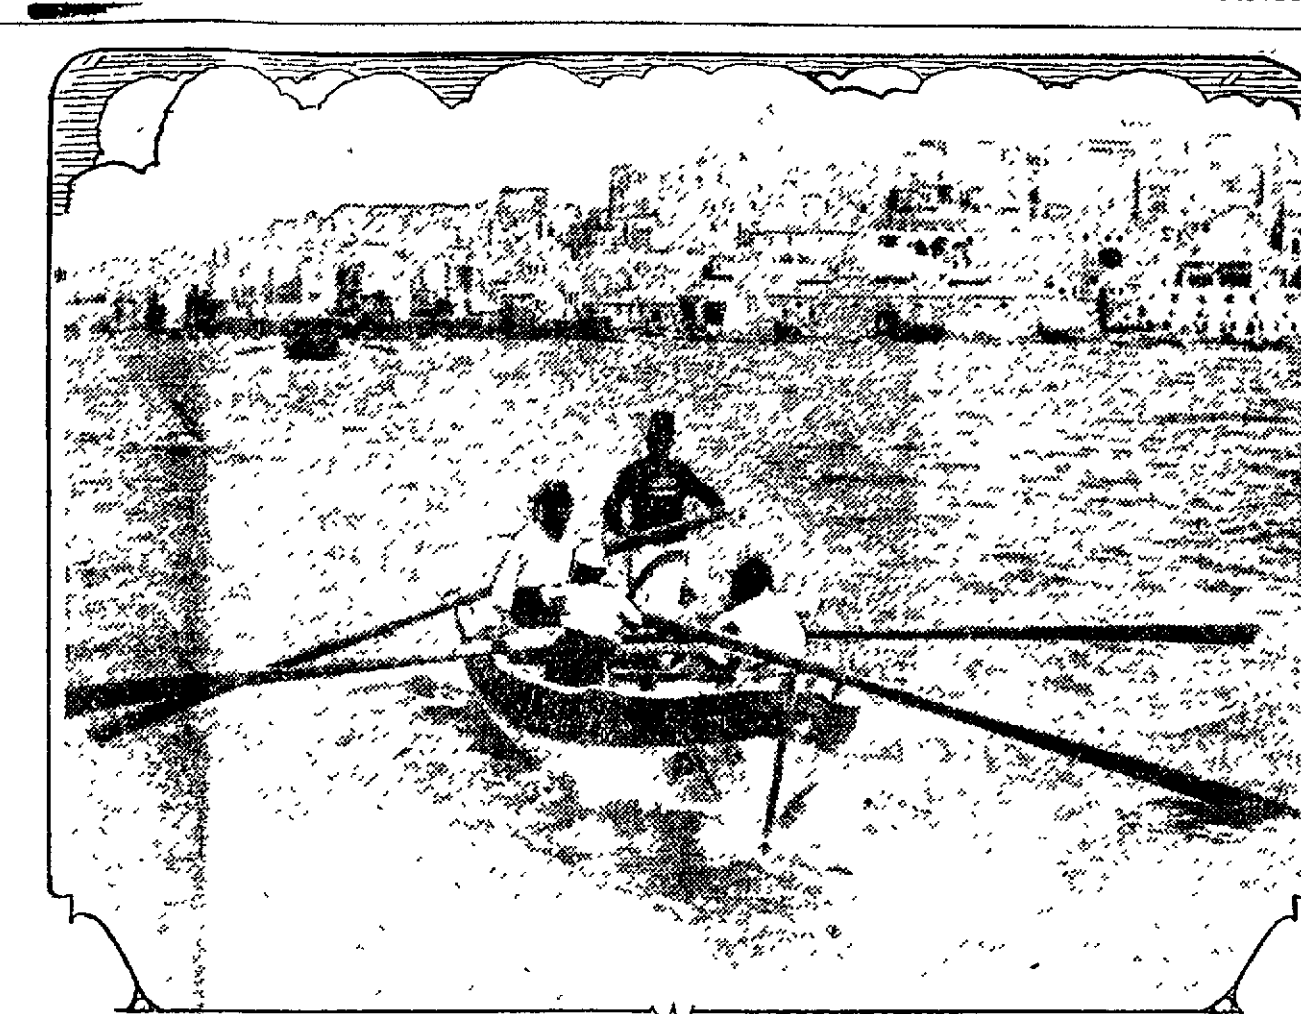

Some troops are reported to have
been moved to the western front,
but this is not necessarily significant
as Field Marshal Haig's pounding
tactics necessitate frequent reliefs
for exhausted German divisions.

German newspapers discuss with
suspicious frankness and avidity the
prospect of an offensive on the Sal-
oniki front, but have never a word
to say about the obvious chance of a
smashing blow at Rumania in an ef-
fort to end the resistance of that
nation. As for Italy, if the Aus-
trians and Germans find the re-
luctant Italian army too hard a nut
to crack the central powers can
easily and quickly charge to the de-
fensive on a strong line for the pur-
pose of seeking a decision on some
other front with the bulk of their
strategic reserve.

SUE FOR SHARE OF ESTATE
OF LATE GOVERNOR FOSTER

Fostoria, O., Nov. 20.—Suit to
break the will of Anna M. Foster,
widow of ex-Governor Charles Fos-
ter of Fostoria has been filed here
by Jesse and Foster Myers of Toledo,
grandsons. The suit involves \$100,-
000 worth of property bequeathed to
the city for hospital and park pur-
poses. The property was bequeathed
by Miss Ann Foster, daughter of the
ex-governor, after the mother had
left the estate to her.

SPAIN WARNS AIRMEN.
London, Nov. 20.—A Madrid dis-
patch says the Spanish government
has issued a special warning that
Spain would regard any flight of
American airplanes over her territo-
ries as in violation of neutrality and
would instruct the military to fire
on such planes.

HUNS TORTURE U-BOAT COMMANDERS
WHO ARE TOO LENIENT WITH VICTIMS

Columbus, Nov. 20.—Commanders
of German submarines dare not dis-
play compassion on their victims un-
der fear of being tortured to death
slowly, if reports of their showing
mercy reach admiralty headquarters.

Such was the message Wesley
Frost, former United States consul at
Queenstown, Ireland, delivered yes-
terday before 300 men and women at
the joint luncheon of the Chamber
of Commerce and Advertising Club.
A captain of a torpedoed ship who
was taken aboard a U-boat, he said,
had told the story of the fate that
awaits Hun sub commanders who
display leniency. Two German com-
manders, it was said, had been tor-
tured to death.

In three years of service at
Queenstown Frost said he had heard
the stories of survivors from 81 Ger-
man-wrecked vessels, including the
Lusitania.

"All honor is due the gallant British
navy for hunting down the jack-
als of the seas," Frost declared, af-
ter qualifying his statement that per-
sonal feelings toward the British em-
pire must be eliminated.

"For five and one-half months the

destroyers of the American navy have
been co-operating with the British;
they have been assuming the burden
of anti-submarine warfare, yet have
not curtailed the 'santa's carnival' to
such a degree that it can be consid-
ered eliminated."

In three years more than 11,000
men, women and children have be-
come submarine victims. The en-
couraging report of losses for last
week must be discounted, in the
opinion of Frost. There is every in-
dication that the enemy has with-
drawn its U-boats from the seas tem-
porarily to concentrate on some new
campaign of ruthlessness he thinks.
German people are the victims of a
"criminal dementia, the result of
an overcrowded empire" is the belief
of Frost. "It's up to the nations of
the earth to administer proper medi-
cines to cure this member of their
family," he added.

He told of the "impromptu bar-
barity" of U-boat crews, who would
stand by and take photographs of
their drowning victims. Ships about
to be destroyed by the enemy have
been known, time after time, to sig-
nal submission and surrender, only to
be destroyed by submarines, he said.

AMERICANS UNDER
FIRE WHEN MOSCOW
HOTEL IS ATTACKED

(ASSOCIATED PRESS TELEGRAM)
Petrograd, Monday, Nov. 19.—
Several members of the American
Red Cross commission to Russia who
were under fire in the National
Hotel at Moscow at intervals dur-
ing the week of street-fighting there,
returned to Petrograd tonight. Many
of the windows of the hotel were
riddled by rifle bullets and many
persons wounded in the streets were
brought into the building where
they were assisted by the members of
the mission. None of the party was
injured and all are in the best of
health.

They report that at the end of the
conflict in Moscow was reached Fri-
day night when a agreement the
military cadets were permitted to re-
turn with their arms from the Krem-
lin. Several fires occurred and
there was much property damage
during the fighting. The Metropole
Hotel was bombarded with shrapnel.

BODY HEAT OF CAR
PATRONS TO KEEP UP
THE TEMPERATURE

New York, Nov. 20.—The Brook-
lyn Rapid Transit company will to-
morrow begin a two weeks' experi-
ment of coal saving plan by which it
is proposed to utilize during the
rush hours the heat from the bodies
of its passengers in maintaining in
its cars a minimum temperature of
40 degrees. The public service
commission at the conclusion of a
public hearing yesterday decided to
permit the experiment by suspend-
ing its order requiring that cars be
kept at certain temperatures be-
tween October 17 and April 15. It
is planned to heat the cars to a tem-
perature of 35 degrees before they
leave the barns, then turn on the
heat entirely. If the cars continue
as at present, to be filled with pas-
sengers during the rush hours they
will provide sufficient heat to keep
up the temperature to the mark re-
quired by the commission—40 de-
grees—according to officials of the
company.

The experiment will be tried on
only one of the many lines operated
by the company in Brooklyn.

NO MEXICANS ARE
DRAFTED AGAINST
WILL WILSON SAYS

(ASSOCIATED PRESS TELEGRAM)
Mexico City, Nov. 19.—Despite
President Carranza's declaration to a
committee from the chamber of de-
puties that Mexican citizens are not
in the American armies, El Democ-
rata asserts that 2000 Mexicans
have been drafted in Texas and Cal-
ifornia, and they are now in France
against their will. El Universal,
answering the charge, says that the
director of El Democra is a con-
gressman, and asks why he did not
have the courage to make this state-
ment before the Mexican chamber.
It intimates that German propaganda
is behind the statement printed by
El Democra.

American Ambassador Fletcher
has issued a statement tending to
correct false impressions made pub-
lic by certain newspapers in Mex-
ico. He cites the American draft
law to show that aliens are allowed
ample opportunity to establish be-
fore an exemption board their right
to exemption from military service.

Ambassador Fletcher says that
recently the Mexican government
called the attention of the American
state department to this matter and
a note, dated November 1, advised
that the president as commander-in-
chief, was ready to consider the dis-
charge of any Mexican citizen who
had been drafted, even though he
had declared his intention of becom-
ing an American citizen, should the
Mexican government request such
action in their behalf and provided
that evidence of Mexican nationality
was furnished.

"Such action was taken by Pres-
ident Wilson," the statement says,
"because of a desire to show a
friendly regard for the view of neu-
tral countries."

details have been given out. Twelve
hundred men were idle yesterday
when it was discovered something
had gone wrong after the plant
closed Saturday night.

PREMIER INCREASES
POPULARITY BY HIS
MONDAY ADDRESS

(ASSOCIATED PRESS TELEGRAM)
London, Nov. 20.—The reception
of Premier Lloyd George's speech in
the house of commons by the morn-
ing newspapers, justifies the assump-
tion that the storm which lately
threatened a crisis has passed not
only without damaging the premier's
hold on the country but perhaps even
strengthening it. It is conceded even
by his opponents that the speech was
in the premier's best manner and
was a parliamentary triumph. Edi-
torial eulogiums flow freely from
his supporters while the comments
of hostile critics lack the fierceness
of previous denunciation.

MONARCHIST PLOT
IN PETROGRAD IS
NIPPED BY ARREST

(ASSOCIATED PRESS TELEGRAM)
Petrograd, Monday, Nov. 19.—
Vladimir Puriskevich, a former mem-
ber of the duma, who led the attack
on German influence in the Russian
army and the "dark forces" shortly
before Emperor Nicholas was de-
throned was arrested today on the
charge of being at the head of the
monarchist plot. With him at the
hotel in which he was living under
an assumed name was Prince You-
sopoff who figured in the assassina-
tion of the monk Rasputin.

120,000 GERMANS ARE
AFFECTED BY ORDER;
200 ARE ARRESTED

(ASSOCIATED PRESS TELEGRAM)
New York, Nov. 20.—More than
120,000 persons in the metropolitan
district will be affected by President
Wilson's proclamation barring all
male Germans from the vicinity of
all places of military importance to
the government according to esti-
mates made today by Thomas D.
McCarthy, United States marshal.
The task of guarding New York
City's many miles of water front
may now be taken out of the mar-
shal's control and turned over to the
water department. About 2,000
soldiers would be required for this
work.

United States troops, fully armed,
raided the Hoboken water front last
night and seized 200 supposed aliens.
They were sent to Ellis Island for
examination and possible intern-
ment during the war.

EVERY MALE GERMAN
NOT NATURALIZED
MUST BE REGISTERED

(ASSOCIATED PRESS TELEGRAM)
Washington, Nov. 20.—Under
supervision of Attorney General
Gregory, department of justice of-
ficials today were working out final
details of a comprehensive system to
be employed in registering every
alien enemy within the borders of
the United States. Authority for
this step was vested in the depart-
ment by President Wilson's procla-
mation issued in response to a na-
tion-wide demand that some action
be taken to curb the treasonable ac-
tivities of German sympathizers in
this country. In the president's or-
der an alien enemy is defined as any
male, unnaturalized German over 14
years of age.

Publication of the registration reg-
ulations is expected in a few days.

20 U. S. SAILORS
LOST; DESTROYER
SUNK IN WAR ZONEBrief Report From Admiral
Sims Says Vessel Was
In CollisionACCIDENT OCCURRED EARLY
MONDAY IN EUROPEAN WATERSVessel Was of Old Type and
Carried Only 91 Officers
and Men

(ASSOCIATED PRESS TELEGRAM)
Washington, Nov. 20.—Stating
the American destroyer Chauncey
in collision in the war zone early
yesterday morning with a probable
loss of twenty-one lives was an-
nounced today by the navy depart-
ment.

No further details were given in
a brief report to the department
from Vice Admiral Sims. The
Chauncey was a small, old type boat
of only 420 tons.

Secretary Daniels made this state-
ment: "The Chauncey, a small American
destroyer, on patrol duty in foreign
waters, was sunk in a collision early
Monday morning. First dispatches
indicate that 21 lives were lost. Fur-
ther information will be made public
when full reports are received."

The Chauncey was one of the old
type destroyers completed in 1902.
Her displacement was 420 tons and
her complement 91 officers and men.

For several years before the war
the Chauncey was used only in coast
defense work and was classified as a
coast torpedo vessel. She was built
at Philadelphia.

ITALIAN POET URGED
NATION INTO FIGHT;
HE IS WAR PRISONER

(ASSOCIATED PRESS TELEGRAM)
Paris, Nov. 20.—Nothing has
been heard of Gabriele d'Annunzio,
the Italian poet and novelist, for
nine days, and it is feared he has
fallen into the hands of the enemy,
according to reports in Italian news-
papers received by the Figaro.

Gabriele d'Annunzio took a promi-
nent part in bringing about Italy's
participation in the war on the side
of the allies. He was appointed a
lieutenant in the Italian army and
joined the aviation corps. In Oc-
tober, of last year, he was promot-
ed a captain for bravery. During
April of this year he fought in
the trenches on the Carso plateau.
He was slightly wounded during an
air-raid over Pola on September 5.

DEPARTMENT HEADS
QUIT THE BOLSHEVIKI
CROWD AS PROTEST

(ASSOCIATED PRESS TELEGRAM)
Petrograd, Nov. 19.—(Monday)—
Seven commissioners appointed by
the Maximalists government to man-
age various departments have re-
signed their posts in protest against
the "methods of political terrorism"
by which they allege the Bolsheviks
seek to maintain themselves in of-
fice.

"We are of the opinion," they as-
sert in the decision announcing their
retirement, "that the necessary form
of socialistic government by parties
is that participated in by the con-
gress of workmen's and soldiers'
delegates."

(ASSOCIATED PRESS TELEGRAM)
Sandusky, O., Nov. 20.—Anthony
Snider, crossing watchman at Mon-
roeville, was instantly killed by a
Baltimore & Ohio passenger train
today when he attempted to stop an
approaching school wagon. Arthur
Seaman, driver, was probably fatally
injured when the train crashed into
the wagon. Twenty small children
had left the wagon at a nearby
schoolhouse a short time before the
accident occurred.

GRAND JURY RETURNS
FOUR INDICTMENTS

(ASSOCIATED PRESS TELEGRAM)
Cincinnati, Nov. 20.—In its sec-
ond and partial report made today to
the grand jury investigating conditions
at the Lovewell asylum for the in-
sane, returned four sealed indict-
ments. Testimony has been produced
before the grand jury for a week
and this probably will continue to
hear all evidence that comes before
it in connection with the Lovewell
investigation.

In the meantime, the half-hundred
physicians are continuing the in-
spection of the 1600 inmates of the
institution.

KIBLER IN CHARGE OF LEGAL ADVISORY BOARD FOR DRAFTEES

Under the selective service army regulations, which have lately been prescribed by the president, President Wilson, in his foreword, especially called upon the legal profession of the United States to offer themselves as associate members of the legal advisory board to be provided in each community for the purpose of advising registrants of their rights and obligations and assisting them in answering the questionnaire.

HON. EDWARD KIBLER.

In recent meetings of the Ohio State Bar Association and the American Bar Association, by appropriate resolutions the services of the state and national bar were pledged to aid the president in any war measure which might present itself, and consequently, E. H. Crowder, provost marshal general, called upon Edward Kibler as vice president for Ohio of the American Bar Association, to organize for this work, and on last Friday, Governor Cox appointed a central committee, consisting of Edward Kibler, chairman; Hon. Paul Howlands, Cleveland, member of the general council of Ohio of the American Bar Association; Judge John A. Schaub, president state association, and Hon. Joseph McGhee, attorney general of Ohio.

This committee had a meeting in Columbus yesterday and organized, and Governor Cox placed in the hands of the committee his nominee of the legal advisory boards for each county and city of the state, and Mr. Kibler's committee sent out formal notice to the members of these boards—between 700 and 800 in number—of their appointment, and requesting each board to mobilize the members of the bar of their respective county to enlist their services, without compensation, to the local draft board and to the registrants.

The central committee authorized notice to be sent to the legal advisory board of Newark, consisting of James R. Fitzhugh, Edward Kibler, Jr., and Carl Norpell, and to the legal advisory board of the county, consisting of John M. Swartz, Andrew S. Mitchell, and John H. Jones. It is expected that at all times the legal advisory board will have members of the bar present, with the local draft board, to advise that board of its rights and duties, and also to instruct registrants how to answer the questionnaire which each registrant is called upon to answer.

The questionnaire which each registrant is called upon to answer consists of a document of 16 pages, and will require careful study and explanation to enable registrants correctly to answer these questions. As soon as the official notice of the appointment of these boards is received, it is expected that action will be taken to enlist every member of the bar of each city as associate members of the local advisory board.

The legal advisory boards are requested to report to Edward Kibler, chairman of the central committee, in care of the attorney general's office, Columbus.

POLITICS EVIDENT IN ELECTION FIGHT

(Associated Press Telegram) Toronto, Ont., Nov. 20.—Sir Robert Borden's union government will go to the polls on December 17 with opposition in fully 95 per cent. of the 235 constituencies in the nine provinces of the dominion.

With the list of nominations com-

plete today excepting in a few outlying constituencies, it is indicated that the supporters of Sir Wilfrid Laurier, or some other section of the opposition, have found a standard bearer in nearly every riding.

WILL ENCOURAGE WAR SAVINGS BY NEW STAMP SCHEME

(Associated Press Telegram) Washington, Nov. 20.—Organization of thousands of war-savings societies to encourage systematic thrift and rivalry in purchase of government savings stamps is planned by Secretary McAdoo as one of the principal features of the war-savings campaign, which will open December 3. Ten or more persons, it was announced today, may form such a society and obtain a charter from the secretary of the treasury. The societies are to be organized in factories, offices, stores, schools, clubs, churches and neighborhood groups.

State directors are to name county and other local directors, to whom the applications for charters are to be made. When the charter is granted the secretary will be designated as an official distributor of savings stamps. Members will be expected to buy from him each week or pay day at least the quantity of stamps for which he has subscribed.

"Every member shall pledge himself or herself," says the official prospectus, "to the further duty of influencing as many people as possible to save, to use his very best effort to secure new members; to influence all members to persist in saving and saving regularly, and to promote actively the sale of war-savings certificates stamps and thrift stamps."

The United States mint is to make thousands of distinctive badges, representing a liberty torch. A member securing 10 other new members, each of whom has acquired a war-savings certificate, will be given a badge marked "Soldier of Thrift." One getting 25 members will be given a badge ranking him as "Captain of Thrift"; for 40 new members, "Major of Thrift"; 100 new members, "Colonel of Thrift," and 200 new members, "General of Thrift."

Y. M. C. A. WAR FUND IN OHIO \$4,300,000

(Associated Press Telegram) Columbus, Nov. 20.—John W. Pontius, general secretary of the Columbus Y. M. C. A., announced today that returns from over Ohio showed that the Y. M. C. A. war-work week campaign in the state had netted \$4,300,000 with much rural territory yet to be heard from. The state's allotment was \$2,750,000.

Columbus exceeded its quota of \$260,000 by \$22,845.07, reporting subscriptions amounting to \$522,845.07.

REPORT FROM 15 STATES.

(Associated Press Telegram) Chicago, Nov. 20.—Subscriptions to the Y. M. C. A. war fund in the central department of the army, comprising 15 states, were estimated today at \$20,000,000, or \$2,000,000 more than its quota, by the committee in charge of the campaign which closed last night.

Figures compiled by the committee today showed that \$15,000,000 had been reported from the entire department. With additional reports to come and a prorata share of the contribution of \$2,500,000 made by the Rockefeller foundation, the committee estimated that the total subscriptions for the department would reach \$20,000,000. Figures received so far include the following subscriptions:

Illinois, \$4,250,000; Ohio, \$3,275,000; Indiana, \$3,042,000; Kentucky, \$3,960,000; Michigan, \$1,299,000; West Virginia, \$175,000.

COAL CASE CONTINUED.

Toledo, Nov. 20.—The cases against the Hocking Valley and Ohio Central roads, accused of making concessions to West Virginia coal shippers have been continued in federal court here to Dec. 3.

CORNELL NAMED TO LIQUOR LICENSE BD. BY GOVERNOR COX

Attorney Ernest Cornell has been appointed a liquor license commissioner for Licking county by the state licensing board for a term of four years. Mr. Cornell succeeds O. C. Larason, Democratic member of

the board, who has been a member since the office was created under the new liquor license law in 1913. Mr. Cornell is the junior member of the firm of Stassel & Cornell, with law offices over the Old Home Building Association. He was formerly secretary to Congressman W. A. Ashbrook and is a son of Joseph H. Cornell of Alexandria. He received the appointment after being recommended by the county Democratic executive committee.

Mr. Larason's term expired in August and the new appointee will take office just as soon as he receives notification from the state board.

DUKE PRAISES HIS SOLDIERS FOR SCRAP ALONG PIAVE RIVER

(Associated Press Telegram) Italian Headquarters in Northern Italy, Monday, Nov. 19.—The correspondent today made a tour of 30 miles along the Piave battle front, visiting Zenson, Fagare and the Segna mill where desperate fighting has occurred and saw the Duke of Aosta, commander of the third army guarding the Piave line, whose men hurled the Austrians into the river and re-established the solidity of the Piave front. At the moment the Duke was issuing an address to his army congratulating them on their glorious achievement.

An officer from general staff headquarters accompanied the correspondent and although the headquarters of the Third Army was reached at an early hour the Duke was coming out to meet along the front. He held in his hand a war map which he consulted with his aides before giving directions for the route to be traveled.

It was a striking picture as the duke stood there studying the map. He is tall, of athletic build with grey hair and moustache and face bronzed by exposure. He wore the service uniform of high command, with boots, spurs and grey coat edged with black fur. He acknowledged cordially the salutes of the correspondent's party and a colonel of his staff explained conditions along the line.

Everywhere, the colonel said, the enemy had been thrown back except at the brink of the river at Zenson, where a few men were huddled in the bushes unable to go forward or backward and were being slowly cut to pieces. At Fagare, Folina and the Segna Mill the rout of the enemy was complete, being accomplished in fearful hand-to-hand fighting on Friday night and Saturday. This confirmed previous information and added permanency to the facts obtained.

The officer procured a copy of the duke's address to his men. It is an inspiring document breathing encouragement and confidence. It says in part:

"Soldiers of the Third Army.—The enemy has attempted to pass our defenses on the Piave but his audacity has met with defeat before your heroic lines and he is driven back, leaving in our hands a great number of prisoners and machine guns. My soldiers, our commander greets you at the moment of this glorious exploit and conveys to you the grateful acknowledgment of the country. With all our hearts we join our efforts for liberty."

General Eberhard, of the famous Bersaglieri brigade, which carried the day, came out to greet the party. He is a short stocky man of resolute bearing.

On the cemetery road, where the Austrians advanced and set up their

line of quick firers, a fearful scene was spread before the party. The road was littered as though a tornado had passed by. Dead horses lay all about in contorted shapes. The highway was strewn with enemy helmets, bloodstained clothing, cartridge bolts and all kinds of accoutrements. The trees on either side were cut in two and the vines of bushes were levelled like grain before a storm.

Just ahead on the road was Segna mill, where the bloodiest fighting was centered. The mill wheel was still running and the water was flowing peacefully. But all about were evidences of fearful carnage. The soldiers who held the mill stood unconcernedly at the door, while all over the ground were tatters left by the Austrians as they were driven from the mill and thrown into the river.

Passing on to the bank of the river, just back of the mill, a horrible sight opened just under the eaves of the visitors. Over there on the sand bar in mid-stream lay corpses in heaps as far as the eye could see, the uniforms showing plainly that they were Austrians. Some lay on the bank, some floated in the water. The Italians had just buried the bodies of 200 Austrians, but these other hundreds could not be brought back for decent burial as the Austrian guns cut down the stretcher bearers every time they went off toward the sand bar. An officer's dead horse, with saddle and rich saddle cloth, lay among the bodies.

The gruesome line of bodies extended far down the river. The Austrians had been cut down by machine gun fire as though by a scythe. All the men in the line pushed forward on their faces and lay there as though on dress parade, but prostrate.

Going on to Zenson the little town could be seen to have been retaken by the Italians after the enemy obtained a brief lodgment. Behind the town on the river edge are bushes. Here were huddled what remained of the first enemy storming party which crossed the river. The whole place was swept by fire and one realized the fearful furnace these men were in.

As the party passed the inundated region the tops of the cornstalks could be seen above the long stretches of water, indicating that it was about five feet deep. Similar traces of vineyards could be seen above the waste of water. Soldiers of the engineers corps were along the banks of the canal. They had opened the sluices wide, and the water was up to the sills. The harvest had been gathered but there can be no planting or sowing there next spring.

MR. BEGGS TALKS TO THE ROTARIANS ABOUT SOLDIERS

James T. Beggs, representing the Fostick commission, addressed the members of the Newark Rotary club at noon today expatiating in detail the important work of the commission in connection with the army. The Fostick work applies to conditions in the communities surrounding the army camps while the Y. M. C. A. looks after the boys' interests inside the cantonments. Both have the unqualified indorsement and support of the government from President Wilson and Secretary Baker down the line. Our own fellow townsman, Wm. E. Hopkins, is in charge of the work at Houston, Texas.

The commission which has already raised two million dollars is now raising a fund of \$3,750,000 for a year's work. Newark is asked to raise \$2400 for this important work. The Rotary club unanimously agreed to conduct a campaign beginning December 4th, the purpose of raising Newark's share of the fund for the boys who are in camp. At the present time Licking county has about 700 young men in the service of the army and navy. Dr. C. E. Hatch will be chairman of the Newark committee.

Taking up the report of the executive council on the high cost of print paper the resolutions committee recommended that the executive council continue to work for measures that would bring about a reduction in prices and to "curb the greed of the paper trust."

John Burke, of the Sulphite and Paper workers, gave notice that when the present wage agreement with the paper manufacturers expired next spring an advance in wages would be asked.

"If prices of papers are fixed by the government," Burke said, "it must not be at the expense of labor."

On motion of Max S. Hayes, of the Typographical Union, the report of the committee was amended to declare the federation on record in favor of a government-owned paper manufacturing plant.

ITALIANS RESIST TEUTONIC ATTEMPT TO DIVIDE ARMIES

(ASSOCIATED PRESS TELEGRAM)

New York, Nov. 20.—Italian possession of Venice and the security of the Piave line depend apparently on the outcome of the desperate battle now in progress between the Piave and Brenta rivers. The Austro-Germans are attacking heavily and are advancing against the stout resistance of the Italians.

If the invaders have captured Monte Tomba, as claimed by Berlin, they are within a few miles of the plains behind the Piave. The Italians are defending each position but the Germans have advanced several miles here within the past few days and seemingly are attempting to drive a wedge between the Italians in the region of Asiago and those along the Piave. Monte Tomba is on the western side of the Piave, six miles west of Vidor.

The Austro-Germans are exerting very strong pressure here and are reported to have brought up Austrian troops from the eastern front and to have transferred General von Fucel's army to this sector. Apparently the Anglo-French reinforcements have not yet reached the Italian fighting zone and from Italian headquarters, it is announced that these troops could be used between the Piave and the Brenta where the pressure of the invaders is strongest.

Around Asiago the Italians have checked the Germans and have been successful in offensive operations. Despite strong efforts to cross the Piave between Vidor and Adriatic sea, the Austro-Germans have ceased their attempts. The artillery fire along the river, however, is very violent.

On the western front the infantry activity has increased somewhat. The British have made a slight advance northward. French, Czechs and have repulsed German attacks at other points in the Ypres salient. In the region of Chaume wood, on the right bank of the Meuse, northeast of Verdun, the French have made an appreciable advance, inflicting losses on the Germans.

In the American sector the artillery firing continues very active and there have been further clashes between American and German patrols. An American soldier has been killed in a fight in No Man's Land.

Premier Kerensky is reported to be at Luga, 90 miles south of Petrograd, where two army corps loyal to the committee for the salvation of the revolution, which is opposed to the Bolsheviks, are stationed. The Bolsheviks now hold the upper hand in Petrograd, Moscow and other large cities, but it is indicated that the question of food supplies now overshadows the political situation. Telegrams received in London show that the food problem is most pressing and a menace has brought about a cessation of hostilities between the two opposing factions at least for the moment.

After the defeat of his forces at Gatchina, Premier Kerensky was faced with the proposed desertion of the bulk of his army. The premier was coerced into promising to surrender to the Bolshevik government, but while the guard was being formed he disappeared, disguised as a sailor. The committee for the salvation of the revolution is opposed to the Bolsheviks in Petrograd and has protested against the order of arrest of Premier Kerensky. The escape of the Petrograd-Eskov railway, about 90 miles south of Petrograd and 60 miles south of Gatchina.

IF FOOD DISAGREES DRINK HOT WATER

With Magnesia to Neutralize Acid
and Stop Indigestion. Gives
Instant Relief.

When food lies like lead in your stomach and you have that full, uncomfortable, bloated feeling, it is because of insufficient blood supply to the stomach, combined with stomach acidity and food fermentation. In such cases try the plan now followed by thousands of former sufferers from indigestion by simply taking a teaspoonful of pure Bisurated Magnesia in half a glass of water, as hot as you can comfortably drink it. The hot water draws the blood to the stomach and the Bisurated Magnesia, as any physician can tell you, instantly neutralizes the acid and stops the food fermentation. Try this simple plan and you will be astonished at the immediate feeling of relief and comfort that always follows this simple, harmless restoration of the normal process of digestion. People who find it inconvenient at times to secure hot water and travelers who are frequently obliged to take hasty meals poorly prepared, should always take two or three five-grain tablets of Bisurated Magnesia after meals to prevent fermentation and to neutralize the excess acid in their stomach. MOVIE ACTRESSES AND THEIR HAIR

Did it ever occur to you that every movie actress you have seen has lovely hair, while the most popular count their curls as their chief beauty? In fact, many are leading ladies just because of their attractive locks. Inquiry among them discloses the fact that they bring out all the natural beauty of their hair by careful shampooing, not with any soap or makeshift, but with a simple mixture of putting a teaspoonful of canthrox (which they get from the druggist) in a cup of hot water and applying this instead of soap. This full cup of shampoo liquid is enough so it is easy to apply it to all the hair instead of just the top of the head. After its use, the hair dries rapidly with uniform color. Dandruff, excess oil and dirt are dissolved and entirely disappear. The hair is so fluffy that it looks much heavier than it is, while its lustre and softness is delightful.

CATCHING UP ON HER SEWING NOW

Lancaster Woman Able to Tend to Home Duties Again

"I work all day at the Hocking Flint glass plant and then sew until 10 o'clock almost every night."

This remark, made by Mrs. Alva Roser, who lives on West Fair avenue Lancaster, shows what a woman can do when she feels well. Mrs. Roser was telling how she had been helped by Tanlac. Only a few weeks ago Mrs. Roser was just about ready to give up. She was away behind with her sewing, and her work at the glass factory was a great task because she was so run down. Her story is told best in her own words.

"I suffered from headaches," said Mrs. Roser. "My nerves were bad. The slightest noise made me jump, and then my head would ache. For three years I couldn't sleep soundly. I often had dizzy spells and had to catch on to something to keep from falling. My appetite was poor, and nothing I ate tasted good. I seemed to have a bad taste in my mouth most of the time."

"In the mornings I usually got up tired. By 10 o'clock I felt as though I ought to be noon. In the evenings I was completely tired out."

"About six weeks ago I read a statement about Tanlac. It was made by a woman I know, and I knew she would not make a false statement. So I tried a bottle of Tanlac. Almost from the first I began to improve. My meals tasted better, and the headaches left me. However, it was not until I started on the second bottle that I noticed any great difference. Then it was that I began to take on weight. I did not feel so tired in the mornings. As I continued to take Tanlac I got stronger and stronger. I am feeling fine now. After my day's work I take pleasure in sewing. Often I sew as late as 10 o'clock. I'm catching up with my sewing that I had to neglect so long because I was so tired. I generally went to bed about half past seven."

"Tanlac has been a blessing to me."

INFANTRY OFFICER FACES A CHARGE OF IMMORAL CONDUCT

(ASSOCIATED PRESS TELEGRAM)

Camp Sherman (Chillicothe, Ohio, Nov. 20.—Ohio and Western Pennsylvania drafted men are preparing for the competition which will decide which platoons of the 324th heavy field artillery, composed mainly of men from Columbus and Franklin county, the 323rd Light Field artillery, in the main from Butler county, Pennsylvania, the 308th engineers regiment, and the 308th signal battalion will make up the provisional company to escort the football team on its trip to Columbus Thanksgiving Day when the game with Ohio State will be staged.

Three platoons from each of the artillery regiments, the 323rd and 324th will be selected Wednesday and on Thursday will compete with two platoons from the engineers regiment and the signal battalion. Four of the platoons will be selected to make the trip.

It was made known today at the office of the division adjutant general that the inspection department of the camp is investigating the case of Captain Frank C. Tullidge of the 331st infantry, who, it is alleged, violated the anti-vice laws while in Columbus recently. Captain Tullidge, whose home is in Cincinnati is under arrest in his quarters and it is indicated that if the investigation shows that evidence in the hands of the officials is correct, a special general court martial which is being called by Major P. H. Winston, judge advocate, will try him on charges of conduct unbecoming an officer.

Under the direction of Johnny Kilbane, camp boxing instructor, an entire platoon of men from the 331st regiment were "mimmo" today, preparatory to the mammoth carnival they are to put on Saturday at the Camp Sherman-Case-Reserve game. The man will first give a demonstration of the various punches, jabs and swings they have learned and will end their exhibition with a grand melee in which all of them will take part at once—twenty-five fights going on simultaneously.

Construction of the new Red Cross rest house, which will provide accommodations for many visitors, is being carried on by a full force under the direction of Captain T. E. Rhoades and will be completed soon. This building is one erected by Ohio Masons and to be dedicated on Thanksgiving.

Ohio selectors are evidently deciding that the war insurance plan of the government is a good one and are subscribing to large amounts. Lieutenant Peebles, in charge of the solicitation, is holding daily meetings at the Y. M. C. A. building and explaining the proposition to the men, who are taking advantage of the offer of the government.

MANUFACTURE OF RUBBER SHOES IS INTERESTING WORK

All day yesterday and up until 8 o'clock in the evening, King's Shoe Store was the most attractive and interesting place on the square.

Miss Grace King of the Converse Rubber and Shoe Co., of Malden, Mass., occupied the large north show window and showed hundreds of people just how triple tread rubbers were made at the big factory. People were eager for the knowledge to be gained, and few for the first time realized the amount of time and patience required to build perfect rubbers—let alone the amount of strictly high-grade pure gum required for the making of a good pair of rubbers.

At the close of the demonstration the King Co. gave away a fine pair of rubber arlets made by the Converse Rubber Co. at \$2.50.

Mrs. Martin Jewell of No. 1 Western avenue was awarded the pair of rubbers by the King Co.

FORTY YEARS' SUCCESS

For a business to be successful for forty years means a great deal. Among other things, it means remarkable excellence in the products it sells. No inferior article can be sold on a large scale for so many years; and it must not only be good at the outset, but so good that the progress of forty years shall not develop any better article to supercede it.

So women can, with confidence, depend upon that old, tried and tested remedy for women's ailments, Lydia E. Pinkham's Vegetable Compound, still as popular as ever, though it was placed on the market before the centennial year, 1876. (Advt.)

New December Numbers of Columbia Records

When Lazaro sings
"Laugh, laugh, Pagliaccio!"

It is more than words or song or acting. His "Vesti la Giubba" is the breaking of a heart in music. Sorrow beyond words, hidden beneath a smiling mask to face the call of duty—what one of us has not sometimes laughed with Pagliaccio? Lazaro, Metropolitan Opera tenor, in this appealing record has made his singing live. 49020—\$3.00.

THE records individually mentioned are only a few of the splendid Christmas list of Columbia Records. It includes many other operatic numbers, 22 new popular song hits, 14 whirlwind dance numbers, patriotic songs, fairy stories for the children, and a number of beautiful Christmas carols and hymns.

Barrientos, crystal clear

FOOD-HOARDERS.

The United States secret service has discovered around New York, about \$75,000,000 worth of food being stored away for higher prices.

The holding of a certain amount of food in warehouses is, of course, legitimate. Supplies must be stocked up against the coming winter. It will not pay to use food lavishly now, and then fall short later because the need for economy was not realized. The storage system at least has the merit of equalizing and stabilizing the supply and regulating the price.

But judging by the Washington dispatches, the bulk of the food found stored was not a legitimate saving up of supplies for winter use, but was the effort of speculators to set unfair prices. It does not seem to do any particular good to hold these people up to public obloquy. For a year now they have been denounced as pirates. Yet they keep on hoarding and feel no scruples when poor people have to pay two dollars for an article they should be able to buy for one. They are in it for the money and do not consider other motives, patriotic or humanitarian.

The government will, of course, have to deal sharply with these people. It will, no doubt, proceed to seize food needlessly hoarded up, and it ought not to pay more than a fair price for it. It seems highly probable that the hoarders will get less out of it after they have dealt with the government, than if they had been willing to pass on their goods to the people for a fair profit.

They need expect little sympathy from the public. If some of them go into bankruptcy there will be few mourners. It is a wise policy to fix a fair price on a product and be content with a moderate profit. On no other basis can good will be built up.

MAKING POLITICAL CAPITAL.

Soon we shall have congress on our hands again. It is the usual history of the winter season that the work is hampered by efforts to frame up a party platform and make capital for the next election. This season we have on hand a great task of war preparation. How far will this be blocked by peanut politics?

The Democratic path is made clear by its leader, President Wilson. Everyone must admit that the war is being prosecuted with tremendous energy and that a stupendous task is being accomplished quicker than any other people could have done it. It is simply up to congress to grant the needed legislation to strengthen all weak points, and speed up our military and industrial development. In this work the Democratic side of congress will be loyal.

The broader-minded men on the Republican side will be, too. But there are many others who as usual will wish to create issues in which they can get re-election and on

HELPING ITALY.

In estimating the available resources for prosecuting this war, the United States government should, and, no doubt, will place a high value on the man-power of Italy. Italy is the one fighting power of Europe that has plenty of men available, excepting, of course, Russia, but Russia seems to have lost its fighting spirit. Italy has not lost its fighting spirit, but it has been crippled by its lack of munitions.

It would be a great mistake to allow Italy's reserves to lie idle for lack of fighting material. It might have been better policy for England and France to have kept them supplied, though this would probably have held back the drive on the western front.

It should be for the United States to so equip Italy as she has never been equipped before. The Italians have shown themselves brave and resourceful fighters. They conquered difficulties in the Alps such as no other fighting army has had to meet. Give them the guns and the shells, and they will make the Teutons turn tail.

The pacifist sentiment that has paralyzed Russia is not very observable in Italy. Before the recent Teuton invasion, there had been some popular discontent owing to the lack of food. The invasion of Venezia has cemented the people in a unanimous determination to expel the hosts of the enemy. But their brave soldiers cannot fight without modern artillery.

More than half of the Austrian army was kept busy on the Italian front, and it could not hold the Italians back without help from Germany. If Italy can be put on her feet again the enormous forces set free by the paralysis of Russia will be kept too busy to interfere with the American operations on the western front.

Yesterday's press dispatches brought announcement of the death of General Maude, commander of the British expeditionary forces in Mesopotamia. General Maude was 53 years of age. His fame as a military leader will endure.

The Y. M. C. A. \$35,000,000 campaign has gone "over the top" and the people of this community have satisfaction in knowing that they have done their part towards accomplishing this fine result.

Considering the freedom with which everyone talks about what the government is doing, it would seem to be a waste of money for the Germans to be maintaining so many spies over here.

Objection is raised to women doing the work of bootblacks, but in view of the number of men who lack the muscle and energy to shine their own boots, this seems to be necessary.

If the food-hoarders can only be sent to jail there won't be any complaint if they have to suffer from the scarcity that they are trying to create for other people.

Judging by some of our newspaper experts, the troubles of the allied generals occur simply because they did not read the military editor's reviews.

When the football player sprains his little finger now, his anxious relatives are not quite so much upset as they were in the days before the war.

Now they have it fixed up so that one of our allies will not try to steal second while another is knocking a popfly, things should go better.

Three-cent postage has upset business a good deal, but it has not interfered with the amount of poetry offered to the newspapers.

It wouldn't do the Socialists any good to get into power, as then they couldn't have the satisfaction of planning revolutions.

So much good food is being sent to the bottom of the sea that fish ought to get mighty fat and good food now.

KNITTED BY LUNATICS, SO-CALLED.

(Cincinnati Enquirer.)

In a shop window at the capital of the state is a great mass of knitted articles destined for the soldiers of the Nation. Attached to them is a simple card inscribed "From the patients of the Cincinnati State Hospital." These objects are mute evidences of amazing advances in science, medicine, and, let it be said solemnly, civilization. Because it should be understood that the patients mentioned mean what were once termed bedlamites and maniacs, and the State Hospital was not long ago called the lunatic asylum.

Once, in the superstitious ages, these unfortunates would have been regarded as victims of Divine wrath and treated as such. Have we not the ancient adage: "Whom the gods would destroy they first make mad?" In later years, as the world awakened, this frightful belief was abandoned to be succeeded by the crude theory of the only half-learned physicians and surgeons that insanity was incurable, and that the only thing to be done for the helpless sufferers was to keep them confined until death came mercifully to remove them from earth. Hence the foundation of the hell-holes and torture chambers called with melancholy sweetness asylums for the insane.

Expanding knowledge and developing medical science have now established that many forms of insanity are as curable as any other temporary human illness, and that with proper treatment a large proportion of patients in the now truly termed hospitals can be restored to normal conditions. It would shock the rude and sometimes cruel lunatic keepers of a century ago to-day to step into the pleasant halls of the state institution and behold "mad women" knitting articles of comfort for men engaged in the far madder business of war, though fighting for a great cause.

PICKETING THE WHITE HOUSE.

(Ohio State Journal.)

It happens, unfortunately perhaps, that the fate of woman suffrage lies with the men, which leads us to remark that all men are disgusted with the White House in being, and hence that reform is being sought. One of the oft-used arguments against suffrage in the last campaign was the annoyance of the President practiced by the women in picketing the White House. It is not a sentimental question; it is a practical one, and the attitude of the women in trying to bother and irritate the President of the United States is a ponderous argument against the just and noble cause of women suffrage. We do wish those picketers could be called off the White House. And so do all men who want to vote for suffrage.

GERMAN GOLD IN MEXICO.

(Philadelphia Record.)

It would be interesting to know who is financing Francisco Villa in his latest outbreak along the Mexican border and what his purpose is in attacking a town occupied by Carranza troops. The bandit's followers are said to number not far from 10,000 a force that even in Mexico cannot be maintained without the expenditure of considerable money. Are German agents supplying this in the hope that a recurrence of trouble along the frontier may necessitate the returning of some thousands of American soldiers there? It is not an unreasonable suspicion in the light of other developments regarding Mexican affairs.

It has been established definitely that the late General Huerta was in the pay of Germany and was being used as a tool of Count Bernstorff, through the agency of Captain von Papen, when he was arrested at the

border on his way to his native country. German agents and sympathizers are reported to be numerous in Mexican towns not far from the frontier. These are capable of doing mischief, even though they do not share the view of Dr. Zimmermann that it would be a comparatively easy matter to wrest Texas, New Mexico and Arizona from the United States and turn them over to Mexico. These are characteristic German tactics of the kind that has turned all South America against the kaiser. If the Carranza government cannot check them Uncle Sam may have to try his hand again.

CHARM OF NOVEMBER.

(Chicago Evening Post.)

Someone once said that Thanksgiving Day was assigned to November to give a bit of cheer to an otherwise dismal month. The roots ordinarily have not looked on November as a drear season, being content in their rhymes to call it the gray month. This season of 30 days upon which we have entered, however, is neither wholly gray nor at all dismal. It is a colorful month to those with eyesight to pick accurately from the surgeon's test hanks the yarn strands of different colors.

November is a month of nature's second spring. Just as old men and women renew their childhood when the end is near, so does the year when it is hastening to the final post. Violets come again in November along the sunny slopes near the edges of the wood and make one think of April. Occasionally, hepaticas are there to bear them company, and before November ends there is sure to be a third blooming of the dandelions.

Why dismal and why gay when there are blues and purples and yellows and reds and browns in field and forest? In late November come some of the brilliant bird visitors from the North, the yellow and black and white evening grosbeak, the flaming pine grosbeak, the white and rich brown snow bunting, the shore lark and the redpoll. It is an abuse of the privileges of the poet to call November gray, dismal or melancholy.

GOV. BEECKMAN'S AIR-TRIP.

(Chicago Tribune.)

Governor Beekman of Rhode Island, explaining his airplane trip from London to General Pershing's army, says his reason for taking it "is simply to face some danger while our brave boys in France are facing so many." We think the governor displays a somewhat naive conception of comparative danger, but if his enterprise does involve any considerable hazard his attitude is to that extent more difficult to justify. We may assume that the governor's life is of value to the community; he has no business, therefore, to risk it needlessly in order to obtain a vicarious emotion. It is the duty of every man in times when the resources of the country are put to the severest test to conserve himself for the sacrifices that must be made. Even a soldier is warned against taking unnecessary risks. In less picturesque manifestations, however, many of us are assuming the same emotional, sentimental attitude betrayed by Gov. Beekman. Instead of buckling down to hard, necessary tasks, we seek to emotionalize our war activity; we are looking for opportunity to do our full duty in one heroic gesture. It won't win the war.

KEEPING FIRES BURNING.

(New York Sun.)

Governor Whitman has made public some suggestions about coal fires which are designed to promote economy and aid Dr. Garfield's Fuel Administration.

Open grate fires are wasteful of coal. Heating the whole house is often extravagant. Spare rooms should be shut up and have the heat turned off.

In tending a furnace fire it is important to see that there are no cracks at the floor line of the furnace, admitting air to the ashpit.

A thin fire is wasteful. Keep the firebox filled to the level recommended by the maker.

A fire benefits by regular and methodical care. It should be coaled and shaken down at set times. The ordinary furnace needs shaking once a day and twice in bitter weather. Shake the fire until you can see light underneath; not a bit longer. Put on coal after shaking—never before.

Keep the draughts shut off as much as possible. Don't leave the feed door open. Keep the ashpit empty and sift the ashes.

In Doubt.
A teacher was having a great deal of difficulty in making clear to a boy the meaning of the word "recalcitrate."

"Now," said the teacher, "your father is a hard worker, isn't he?"
"Yes, sir," he said.
"And when he gets home at night he's dead tired, is he not?"
"Yes, sir," he said.

"Then," pursued the teacher, "since it's night and he's dead tired and work's over, what does he do?"
"Ah," said the boy, "that's what mother wants to know."—Washington Star.

Spirit of the Press

A Saving Proposition.

It has been made so easy to send letters in recent years that we have grown wasteful of them. When it was necessary to write every letter in long hand there were limits to correspondence. But in these days of stenographers and dictagraphs and appliances for multiplying letters the mails are daily swamped. It is no more effort now to send out 1,000 letters than it would have been 20 years ago to send out 10. While we are saving on correspondence, why not save in the size of the paper used? Why waste perfectly good paper at a time of paper scarcity by using a large sheet to send a letter of three or four lines? Why not use paper of a size to fit the length of the letter? If every business house in the United States would stop sending out a lot of blank paper with every letter there would be an enormous saving in a year—a saving that would show up on the books as something worth while.—Kansas City Times.

A Middleman Custom.

Retailers who compel customers to purchase other commodities in order to get sugar may find themselves in trouble. Complaints of this practice are coming in from various quarters and also of extortionate prices for the sugar itself. "In the handling of these complaints," says Commissioner of Markets Moskowitz in New York, "the Federal food administrator has the co-operation of the United States Secret Service. Greedy dealers will do well to take notice. By December 1 the Cuban sugar crop should be ready for refining and shortly thereafter relief may be felt by the New England purchaser. But the situation calls for care in sugar consumption. Let every individual user economize. It is a commonplace to say that most of us eat too much sugar. Now is the time of all times to reform.—Providence Journal.

Capitalizing Prussian Power.

The only generals and the only soldiers who can now win battles for the Central empires are Germans. The Austrians were beaten by the Russians and Italians and Rumanians and victory was won for them by the Germans. The Turks have been beaten by both Britons and Russians, and not even the genius of Von Falkenhayn could save them in the last battle of Mesopotamia. But the Germans have suffered nothing but defeat from the British and French in the two last years and they can expect nothing better when the Americans join in the conflict. Bleeding and staggering, Germany must fight the battles of her allies in order to prevent them from deserting her. What wonder that the kaiser fills the air with talk of peace.—Portland Oregonian.

Praise For The Railroads.

Only the most cautious person will find fault with the recent conduct of the railroads. They have, to all appearances, done the thing which sharp, but friendly, criticism was directed toward them for not doing in other days. They have risen to the demands of the situation. They have accomplished 50 per cent more with their facilities than their managers supposed, two years ago, they could do. For this they deserve praise. And for this, also, they deserve more than generous treatment, at the hands of the Interstate Commerce Commission, than they are now receiving.—Christian Science Monitor.

The Editor's Ambition.
A Detroit woman who sued her husband for divorce testified that his income from a popcorn stand on

There are few pacifists here or elsewhere today who are not more concerned over what may happen to Germany than about anything else involved in the war or in the peace to come. If we may believe the Kaiser, he is the chief of all pacifists. He abhors the war which he began and he has no purpose today but peace.

Pacifism is Prussianism at bay. Pacifism is a confession that a monstrous conspiracy has failed for the moment and cannot be renewed until the world has been lulled once more

into a sense of security. What pacifism asks is a German peace, and, consciously or unconsciously, every American pacifist is demanding that very thing.

GRANVILLE

(Special To The Advocate.)

Granville, Nov. 20.—The attendance at the Travelers' club Monday afternoon was quite large, and the program on Central America was presented in excellent style. "Life and Customs of the People" was the comprehensive topic of a paper by Miss Daisy How, which showed wide reading and which was treated with the humorous tolerance of a seasoned traveler. The home of the people and their "inhabitations" were impartially presented leaving but few illusions in regard to that picturesque region. "Child Life and Folk Lore" was a topic with which Mrs. W. E. Clemons had thoroughly familiarized herself giving it out to the company with evident enjoyment in a series of marvelous tales, somewhat as one relates bedtime stories to eager children. It was cleverly done. The round table topic for the day was

ABOUT PEOPLE

"Public Play Grounds" led by Mrs. E. B. Hopkins, who called upon three club members in presenting different phases. Mrs. Ella Praker, for 24 years a member of a Columbus woman's club, gave the results of the supervised play grounds in that city. Mr. Robert Biggs, whose son now in Chicago, was master of the Boy Scouts in Granville, presented an admirable model for a supervised playground such as Granville would like to have and Mrs. E. P. Cook whose daughter Laura is with the Goodman Guild in Columbus, described the recreation park of that organization of altruistic workers. Free discussion followed the formal talks. The club has resolved itself into a knitting unit for the Red Cross.

Rev. and Mrs. C. E. Stanton entertained with a charmingly appointed dinner, Monday evening at their home in East Broadway, complimenting Mrs. Brooks Clarke who is visiting in Granville. Covers were laid for Mrs. Clarke, her sister Miss Charlotte Clarke, Prof. and Mrs. C. D. Coons, the host and hostess.

J. T. Watt, en route from Wilmington to his new home in Cleveland, visited his son and daughter, Prof. and Mrs. C. D. Coons over Sunday.

H. W. Deming, his wife and daughter, Mayor and Mrs. C. D. Coons motored to Delaware Saturday, taking in the football game and taking dinner at the hotel, before returning.

Director Eschman at a meeting, the other evening, of the executive committee of the Festival Association, said that he feels emphatically that he can put every ounce of his strength and influence into boosting the music course this year, that it is a magnificent opportunity for the community to hear the best in the country, for the singers to enjoy the undreamed of privilege of singing in chorus to an accompaniment by the greatest orchestral organization in this or any other country, one that as a rule does not accompany obscure choruses even in a well known work as the opera of "Tannhauser," that two performances by the New York Philharmonic; a piano recital by the renowned Arthur Schnitke; a song recital by the Metropolitan baritone, Arthur Middleton and a first class string quartet, makes up a combination never before equalled in this community for excellence. No one in Granville or vicinity can afford to miss even one of these attractions. Course tickets will be ready immediately after Thanksgiving at the usual price, although single admissions will be higher. See that you secure advance tickets. The course will begin sometime before Christmas.

The concert of the N. Y. Philharmonic in Newark on December 19, while not in the Granville festival course, is yet a part of the bargain with the orchestra which makes it possible for the county to secure three magnificent performances, and all three will doubtless require the S. R. O. sign.

WELL-KNOWN PIANO-MAN MAKES CHANGE. Chas. W. Many parents make a great mistake in not stimulating the imagination of their children. A child will play for a whole day with a railroad train made of chairs because imagination enters into the game. The armchair is an engine, the sofa is the sleeping car, and another armchair is the baggage car. But, if you give him a perfect representation of an engine and train of cars, his imagination is left out in the cold. There is no part for it to take in the game, there is nothing to be done with the mechanical model except to break it open and see how it works.

That is why the train of chairs or the rough grotesque toy-train will always give more real pleasure than the most elaborate machinery that can be conceived. That is why the rag-doll or the woolly lamb will always be nearer baby's affection than the most wonderfully equipped and elaborately-clothed French doll.

Every Day Etiquette

"Should a young man accompanied by a young lady take off his hat upon entering a theater, or should he wait until they have reached their seats?" inquired George.

"A man should always take his hat off as soon as he enters the theater," answered his father.

SEWING ROOM AIDS

Keep a small pin cushion hanging on the machine with pins and needles in it.

For an extra large hole in stockings fit a piece of netting to the hole and draw through the meshes.

In making children's dresses make the sleeve straight and put a casing on the underside about one inch from the hem. These may be run with ribbons and removed when washed, making the sleeve easy to iron.

When the eyes are tired and smart take a basin of water, dip the face in and when the eyes are completely under water open and shut them. Do this once or twice and find how refreshed they feel.

MR. RUTLEDGE AND MRS. PHILLIPS WED; NOW ON HONEYMOON

Announcement is made of the marriage of Mrs. Louise Phillips and Mr. James W. Rutledge which was solemnized at 2 o'clock Tuesday afternoon at the home of the rector, Rev. L. P. Franklin of the Trinity Episcopal church.

Immediately following the ceremony Mr. and Mrs. Rutledge left for a wedding trip through the south and east and on their return will be at home in North Fifth street.

The bride has been living at the home of Mr. and Mrs. Frank Mahard in Elmwood avenue. Mr. Rutledge has been county recorder and county treasurer of Adams county, Ohio, and is manager of the Rutledge Brothers clothing store in South Park Plaza. A number of the county officials from the court house bade them "bon voyage" at the station amid a shower of rice.

KALESINES HOLDS WHIP-HAND; SLAVS ARE AT HIS MERCY. (ASSOCIATED PRESS TELEGRAM) Washington, Nov. 20.—Unofficial dispatches reaching the state department today from Tornea, on the Sledish frontier, say passengers arriving there from Russia, declares the Russian situation is controlled by General Kalesines, the Cossack commander, who holds the country's coal and bread supply in the Don Cossack region.

A similar view is taken at Stockholm. A message from there, dated yesterday, tells of the belief that Kalesines is the man of the hour and that Petrograd is at his mercy. A dispatch from Tornea, dated yesterday, reports the arrival there of several Americans from Petrograd in advance of the large party being sent away by Ambassador Francis.

SOCIALISTS LAUNCH CAMPAIGN TO FORCE PEACE WITH RUSSIANS. (ASSOCIATED PRESS TELEGRAM) Copenhagen, Nov. 20.—Philipp Scheidemann and Friedrich Ebert, the German-Socialist leaders, before large meetings in Dresden and Elberfeld, yesterday launched a campaign designed to force the German and Austrian governments to abandon their present plans for annexation under the guise of protectorates of Poland, Lithuania, and the Baltic provinces and accept the peace offer of the Russian Bolsheviks.

Herr Scheidemann said Germany would be endangered and the proposed general disarmament and lasting peace placed in jeopardy if Russia should be forced by German pressure to become a military state.

Bar Adopts Resolutions. Judge John M. Swartz, president of the Licking County Bar Association, called a meeting of the bar this morning, and appropriate resolutions were passed touching the death of James F. Lingafelter, who was a member of the Licking county bar. A committee consisting of Charles N. Moore, J. R. Davies and E. S. Randolph was appointed to draft suitable resolutions. Several members of the bar made remarks touching the life and character of the deceased.

Sympathy From Lawyers. On motion of Edward Kibler, Sr., the Licking County Bar Association, which was in session this morning, requested the president of the bar association, Judge John M. Swartz, to direct a letter to the widow of O. C. Martin, deceased, expressing the sympathy of the members of the bar toward her in her bereavement, and expressing the appreciation of the members of the bar for the services rendered by Mr. Martin as deputy clerk of courts of Licking county, deputy sheriff, deputy probate judge, and county recorder.

**Washing Won't Rid
Head Of Dandruff**

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this, tonight, and by morning, most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

DOCTORS HAND OUT LIVE TIPS

THEY TAKE THE PUBLIC INTO
THEIR CONFIDENCE.

Prominent physicians claim people fall in life because of "nervous hunger" that it is the active bright-eyed, strong nervous man or woman who is "there" to work or play.

Strong, well nourished nerves is the great secret of success, health and happiness.

Men and women try to live regardless of health, strength, ambition, energy and hope, they exceed the speed limits, wasting nerve strength and energy and fail to nerve up to resist force, afterwards they only excel, life has no joys.

Without energy, ambition, strong nerves, and pure blood one cannot hope to enjoy the fullest measure of a contented and happy life.

A noted specialist says, "Phosphated Iron brings strength to the blood, nerves and brain, that it is a perfect combination of vital elements of great tonic qualities when taken by 'nervous-sick humans', that it will increase body and nerve energy, restore ambition and staying powers."

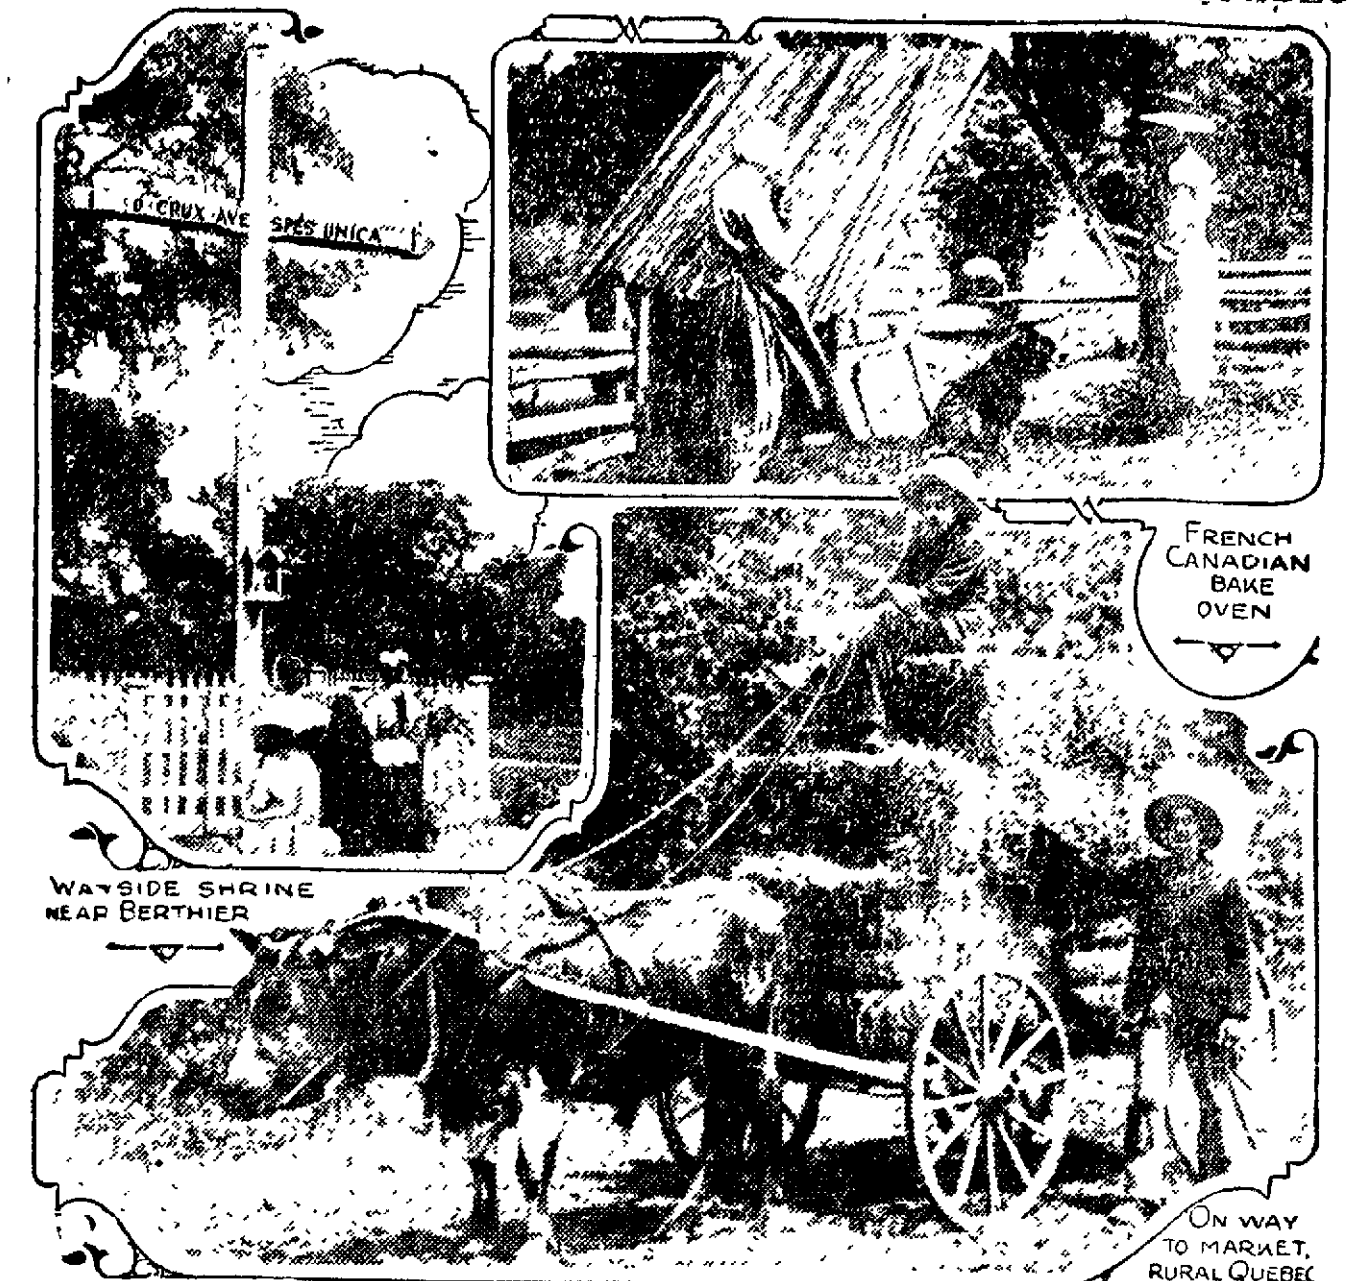

He also says: "If you are the victim of overwork, worry, excess of mental and physical forces, have the blues, and the pleasures of life are no longer enjoyable, that you need Phosphated Iron to brace, build you up and put you on your feet again."

Special Notice—To insure physicians and their patients getting the genuine Phosphated Iron we put up in capsules only, so do not allow dealers to substitute any pills or tablets. Evans' Drug Store and leading druggists everywhere.

CONTINENT'S LAST SEVENTEENTH CENTURY SETTLEMENT'S PRESERVED BY FRENCH-CANADIAN HABITANTS OF QUEBEC

The question of conscription in Canada has brought to the world's attention the fact that Quebec and its French-Canadian population are a distinct and rather set-apart factor in the life of Canada. The general conception, and a correct one, of the vast Dominion just across our northern border, is that it is a country much like our own, brimming over with the energy that grasps all modern innovations. It surprises many, however, to learn that in some parts of the Province of Quebec conditions have changed little since the days of the first French pioneers. This is true only, however, of some parts of Quebec, for all the remainder of the Dominion is exceedingly up-to-date.

The French-Canadian of Quebec is above all else a landowner and passionately attached to his acres, few though they may be in number. In the beginning the land was owned by the Seigneurs who parceled it out to the people; they in turn paid a small rental in the shape of taxes. The tax was an acknowledgment of the Seigneurs' rights to reclaim the lands. This state of affairs was intolerable to the people, who insisted and secured the right to own the land in fee. At the same time they took to themselves the name "Habitant," meaning "free inhabitant," a term of which they were and still are, justly proud and jealous.

The Habitant of today lives in the same house as did his great, great grandfather. An investigation in 1908 established the fact that there were two hundred and seventy families living on homesteads that have been occupied by their families for more than two hundred years. This is a charming district full of things quaint and old-fashioned. The villages are many, they lie nestled in the hills or on the banks of a stream. Usually they are pretty

NEWARK GIRL NURSES WOUNDED IN FIELD HOSPITAL ON NORTHERN COAST OF FRANCE

Miss Florence Hershberger
Writes Interesting Letter
of Work Under Difficulties

The following letter received by Mrs. Charles N. Moore, 328 West Church street, from her sister, Miss Florence M. Hershberger, who is doing Red Cross work as a nurse with the British expeditionary force in France, will be of interest not only to the friends of Miss Hershberger, but to all readers. Miss Hershberger says:

"I cannot imagine why I do not hear from you. No letter came for more than a month before I left Philadelphia, and now I have been expecting one for a long time. This is my fourth to you since leaving U. S. A.—evidently you have not received them. I sent one from Nova Scotia which you should have received about the 17th of September; two from London, and one from France.

"We have been here since the 20th of September. We—on the 20th—(cut by censor) 'went to London for five days and then came here. We are beautifully situated on the northern coast of France.' We are having some difficulty getting acclimated. I shiver and shake even though I am clothed in woens. Since we are right on the coast the air is damp and penetrating. It rains almost every day and the wind is positively terrific at times. Now and then we have a warm, sunny day, and it is wonderful. There are the quaintest little French villages all along the coast, within walking distance. We go over almost every day to buy lace and food. As you might imagine we are living on war rations. I never want to see jam or cheese again; very little sweets, and always black bread.

"We are working very hard. There are 2000 patients here who need a lot of care. The principal thing we have to learn is what not to do in order to get around to all. We dress their wounds, but cannot do much more for them. We have neither the time nor the supplies for anything more. This is a field hospital, so they are sent on as fast as possible.

"I never fully realized there was a war until now. But I know it now. I hear that our own boys are in the front line. I hoped the war would end before this was necessary. I have seen too many come down from the front lines—mere pieces of men. We never see such wounds in a civil hospital, even the worst cases cannot be compared to the ones that are filling our beds now. But even so, I am glad to be here. It is an experience that never can be repeated. I wouldn't be missing it for anything I know of.

"I have you a complete chronicle of my travels in my other letters. Suppose they will reach you in time. I am keeping a diary, so will be able to give its complete story when the

war is over. We know very little of the war in general, but much of the lines in our section.

"I have bought three Liberty bonds; so only 15 dollars a month will be sent to you. Kindly put it in the bank to my credit; also, the bonds will be sent to you when they are paid for in nine months. The war department will send them to you from Washington.

"We are living in shacks which are fairly comfortable. We have two in a room of fair size. We found only a cot here when we arrived, but we have contrived furniture from packing boxes, covered them with cretonne and bought campchairs and a few other things until we are quite comfortable. There is a little stove in each room, which is very satisfactory if you are able to serve coal—which isn't often.

"We walk about the garrison in sou'westers, slickers and boots. The patients are in huts and tents—more or less leaky.

"I am just now trying to get up courage for a bath. We have returned to that primitive institution; the Saturday-night bath. I feel like dispensing with it altogether, but my roommate sets me a good example and I follow—you, too, would hesitate to bathe in a cold room, I know. My letters must necessarily be very unsatisfactory as far as giving you any news is concerned. We are not permitted to give out any information concerning our garrison, or even relative position here. You know about where we are. There is a rumor that we may move, but it is improbable that we shall do so—at least until spring. Now that we are settled I hope to send me anything for Christmas. I shall not miss it much; so many of the boxes do not arrive. Do not attempt to send anything at all. I am doing very well on what my friends in Philadelphia have been sending.

"Someone has given each of us a wonderful war sleeping bag. I shall never cease to be thankful for mine—certainly it is a great privilege to

be warm here. I am so tired I could sleep out in the big road.

"Tell Emma Kammerer I'll have plenty of tales to tell her now. She was afraid I might run out.

"We have a tea every Sunday afternoon in our mess. The officers of the garrison are invited. I was on the tea committee today—worked all afternoon making sandwiches.

"We are not allowed kodaks so cannot send pictures of any kind. May be able to send some postcards later on. Do write. I cannot imagine why you have not written for so long. Affectionately,

"FLORENCE.

IS IT A CURE FOR ASTHMA?

Simple Prescription Gives Instant Relief.
Makes Breathing Easy.

In New England, where Asthma, Bronchitis and other diseases of the throat and lungs are so prevalent, remarkably successful results are being reported following the use of a new form of treatment known as Oxidase, a physician's prescription.

Oxidase is a harmless but powerful combination of curative agents concentrated and compressed into a small tablet. One of these tablets slowly dissolved in the mouth before going to bed seems to have the effect of releasing the muscular constriction of the bronchial tubes, opening up the air passages and regulating the patient to breathe easily and naturally while lying down and to get a comfortable night's sleep.

So much interest has been shown that local druggists, including W. A. Erman, Evans' Drug Co., have secured a small supply and state that they are authorized to refund the money paid for the first package if any of their new treatment fails to give relief. Oxidase is pleasant to take, contains no harmful habit-forming drugs and is not expensive. This makes their test an easy matter.—Advertisement.

DANDRUFFY SCALPS LEAD TO BALDNESS

If you have dandruff get rid of it quick—it's positively dangerous. It will surely ruin your hair if you don't. Dandruffy heads mean faded, brittle, gray, scraggly hair that finally dies and falls out—new hair will not grow—then you are bald and nothing can help you. The only sure way to abolish dandruff for good is to use Parisian hair cream. It is the germ that causes it. To do this quickly, surely and safely there is nothing so effective as Parisian hair cream. You can get from W. A. Erman and good druggists everywhere. It is guaranteed to cure dandruff, stop itching scalp and falling hair, and promote a new growth of the best, small as it is, will be refunded.

Parisian hair is a scientific preparation that supplies all hair needs—kills antiseptic liquid, neither sticky or greasy, easy to apply, and delicately perfumed.

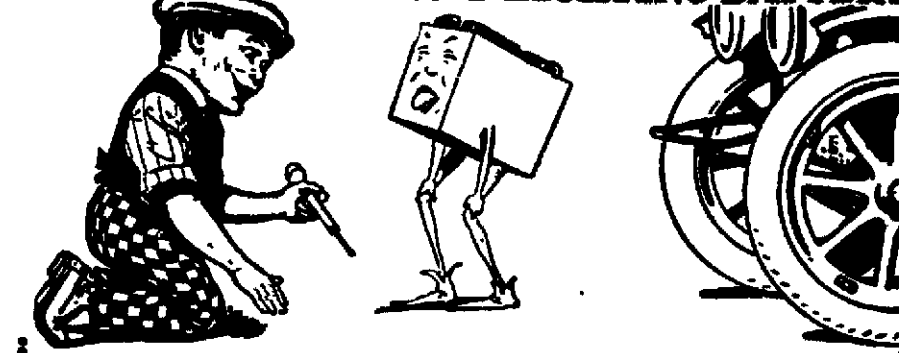

If you want beautiful soft, thick, lustrous hair, and lots of it, you must use Parisian hair cream. Don't delay—begin tonight—call attention not to the name, abundant hair for years to come.

Note: Parisian hair cream positively will not color or streak the hair.

FREE ATTENTION FOR YOUR STARTING & LIGHTING BATTERY

WE want you to get in the habit of letting us inspect your battery (regardless of its make) regularly. This we do free of charge, thus materially increasing the life of your battery. Should repairs be necessary we will make them at moderate cost.

The "Exide" Starting and Lighting Battery gives you a service on which you can always depend and at the very minimum of cost.

Remember: It's the battery chosen by the U. S. Navy for Submarines; gun firing and wireless service. That's a recommendation that's hard to beat.

Take advantage of our free service.

SLIPKNOT RUBBER HEELS

If your skin itches just use Resinol

No remedy can honestly promise to *heal every case* of eczema or similar skin ailment. But Resinol Ointment, aided by Resinol Soap, gives such instant relief from the itching and burning, and so generally succeeds in clearing the eruption away for good, that it is the standard skin treatment of thousands and thousands of physicians. Why not try it?

Resinol Ointment and Resinol Soap are sold by all druggists.

To Stop a Persistent, Hacking Cough

The best remedy is one you can easily make at home. Cheap, but very effective.

Thousands of people normally healthy in every other respect, are annoyed with a persistent hacking-on bronchial cough, and relief comes almost immediately. It is tasteless, pleasant and keeps perfectly.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, and is used by millions of people every year for throat and colds with splendid results.

To avoid disappointment, ask your druggist for "25 ounces of Pinex" with full directions and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the subject for calomel, act gently on the bowels and positively do not irritate.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after-effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

A DOCTOR FOR ONLY FIVE CENTS A DAY

Thousands of persons have Rheumatism, but don't realize it until the disease has secured a permanent hold on the whole system. Pain is Nature's warning sign of trouble. Many serious cases of Rheumatism start with a small pain or a slight indisposition, and the best time to avoid suffering is to treat first symptoms promptly. Highly paid chemists and specialists have for years searched for just the right combination of natural herbs and drugs to overcome rheumatism even after it has been allowed to get a good hold, they believe they have finally succeeded in the production of the wonderful new medicine called Rheuma.

So well has Rheuma succeeded that arrangements have been made whereby it is now possible to secure Rheuma from T. J. Evans or any well-stocked pharmacist. If he happens to be out of it, he can quickly secure a supply from any jobber, and the price—75 cents a bottle—is low enough to put the wonderful medicine within the reach of all. It really costs you five cents a day for a doctor for Rheumatism when you use Rheuma. Try it, you can have your money back if not satisfied.

HOW TO RELIEVE HEAD NOISES

GOOD ADVICE FOR THOSE WHO SUFFER FROM HEAD NOISES

People who are growing hard of hearing and who experience a stuffy feeling of pressure against their ears, accompanied by ringing, humming, hissing sounds in their head like water falling or steam escaping should take prompt and effective measures to stop this trouble. Head noises are almost invariably the forerunners of complete or partial deafness, and most people suffer from them constantly. Sometimes these head noises become so distracting and nerve-racking, with their never ceasing "hum," "buzz," "ring," "whistle," "rattle" and complete nervous breakdown may result.

Thanks to a remarkable prescription, it is now possible to lessen the severity of these head noises and often completely overcome them and with the disappearance of the head noises the hearing also greatly improves and very frequently can be restored to normal. It can be easily prepared at home and its use is absolutely effective treatment for this trouble. From your druggist secure 1 oz. Jarminit (Double Strength), take this home and add to it 1/2 pint of hot water and 1/2 ounce of granulated sugar. Stir until dissolved. Take one tablespoonful four times a day. Jarminit is used in this way not only to reduce the severity of inflammation and swelling in the Eustachian Tubes, and thus to equalize the air pressure on the drum, but to correct any excess of secretions in the middle ear, and the results it gives are usually quick and effective.

Every person who suffers from head form should give this recipe a trial. For sale by T. J. Evans.—Advertisement.

FERTILIZER RETURNS

FOUR TIMES ITS COST.

Barnyard manure is deficient in phosphorus and hence is not a balanced food for plants. Additions of this element to manure make more than their cost on soils of average fertility. Eight tons of manure per acre applied to land at the State Experiment Station at Wooster has produced a 20 per cent average yield worth \$2,400 an acre. Acid phosphate costing 87 cents per ton has increased the value of the yield to \$28 when used in addition to the same quantity of manure. At present prices the cost of the acid phosphate would be \$120 per ton and the value of the increased product \$18,600 over that produced by manure alone.

Animals take part of their food in the phosphorus to assist in building their skeletons and that contained in their milk. Unless the phosphorus of the farm is supplemented with chemical phosphate, the food brought in from outside the soil will become exhausted of phosphorus as crop production continues. Acid phosphate or RAW phosphate is commonly used at the rate of 10 pounds to a ton of manure.

Cyrus E. Jones, who came to this city from Detroit, Mich., and who has been residing in Locust street, was sent to Camp Sherman today for local draft board No. 3, Detroit. Mr. Jones had registered and had been accepted in that city.

Hearing Tomorrow.

George Moore was arrested yesterday on an affidavit charging him with securing \$33 worth of paints and oils under false pretense. Moore secured the goods on his statement that they were intended for his father, the affidavit states. The hearing will take place Tuesday morning before Mayor R. C. Bigbee.

Removed to Home.

Mrs. Arthur Hupp, who has been a patient at the City hospital for the past nine months, following the death of her husband, was removed to her home in Gay street today in the Bader ambulance.

Light Police Court.

Two plain drunks answered the roll-call in Mayor R. C. Bigbee's court today. One was fined \$5 and the costs, and the other \$3. Both were returned to jail on account of not paying the fine.

She Did Her Best.

"No," she remarked the determined lady to the indignant taxi driver who had received his exact fare. "You cannot cheat me. I haven't ridden in cabs these last 25 years for nothing."

"Haven't you?" he retorted, bitterly. "Well, you've done your best."—Brooklyn Citizen.

BADER MUST GIVE UP BUSINESS FOR ARMY IS HUNTING BUYER

Max Bader, manager of the Bader Chair company, is making arrangements to dispose of his business, as he reports at Camp Sherman, Chillicothe, the first of December. He was drafted in the first quota, but was granted an exemption until December 1, to dispose of his business.

The company under his management has been enjoying a successful regime, and a new feature—the Baderola, a talking machine—has been added during the year. Following extensive experiments the machine has been perfected and placed on the market.

Mr. Bader is desirous of disposing of the business under the name of the Bader Chair company—at least until his return—so he may re-engage in the active interest of the company.

BODY OF TRAIN VICTIM NOT YET IDENTIFIED

The body of the unknown man who was instantly killed in the Pennsylvania yards Sunday afternoon, has not been identified. Little hope is held for establishing his identity as he is thought to have been a stranger tramping his way. It is probable the body will be buried tomorrow.

In the army every man must begin at the bottom, but that is no reason why he shouldn't be sent over the top.

WAKE UP!

Don't subscribe for your magazines through strangers. You are likely to get stung. There can be no possible advantage, then why take the risk? The Edmonson Book Store is prepared to save you every penny that can possibly be saved and they do all the work saving you the trouble and expense of writing and sending money. They have served the public in this way for 24 years. They are prompt and stand between you and trouble. Tell them what you want and when they will do the rest. They will duplicate any honest quotation.

SOLDIERS' XMAS FUND WILL REACH LICKING MEN IN ANY CAMP

A meeting of the committee having charge of arranging for a Christmas treat for the Newark and Licking county soldiers, was held last night, and reports were heard from several of the team captains. One of the White shop captains turned in \$40 from one shop alone. Great interest is being taken in the matter and it is possible that a committee will leave for Camp Sherman Thursday to make the necessary arrangements for the Christmas treat at that place. Each member of the committee will bear his own expenses, and no part of any expense will be taken from the fund. The soldiers of camp other than the one at Chillicothe will be amply provided for.

This is the time we should all conserve our resources. Don't wear out your welcome. You may find it hard to get another.

CITY AUDITOR AND TREASURER MAY GET WAGE BOOST

Council Passes Necessary Legislation
To Help Servants Meet Increasing H. C. O. L.

Council last night enjoyed a perfect orgy of salary boosting as a departing salute to those members who retire from office at the end of the year. The auditor's salary was boosted to \$2100 a year from \$1800; the treasurer got a salary boost of from \$600 to \$780; policemen and firemen got their salaries into the higher for substantial increases, water and light plant employees of the city engineer's office asked for an increase.

There was some opposition to the moves but the salary of the auditor and treasurer were boosted on suspension of rules, council members being told that Monday night was the last night on which legislation could be passed which would benefit the present incumbents who succeeded themselves Jan. 1.

But it is hinted that there is many a slip betwixt the salary boost and the drawing of the pay check. It was noticeable that other employees of the city who have not had consideration from the salary fixers for some years, were again ignored in last night's orgy.

Upon recommendation of Examiner Heck, the ordinance providing for the salary for the clerk to the sinking fund trustees, was repealed. This gives the trustees the right to choose their own clerk and fix the salary. City Auditor Dodd as well as his predecessors in office filled this position until the examiner's recommendation was made. Mr. Dodd then resigned and Frank Young his assistant, was named. Since Mr. Young went to Washington to enter government service he has arranged with Auditor Dodd to act in his stead. With the new ordinance in effect, the auditor may act if the trustees so determine, without the round-about arrangement with Mr. Young.

Seated with the audience when council opened the session were new councilmen and officials elected November 6. Mayor-elect Atherton and Solicitor-elect Ashcraft, President-elect R. L. Williams and new Councilmen Charles Redman, First ward; J. R. Ashbrook, Second ward; Phil Baker, Third ward; S. O. Riggs, Fifth ward; Lester Newkirk, Sixth ward; T. A. Bazler and Peter Faust, councilmen-at-large and Atherton's law service director, J. E. Wilson were all on hand to watch the proceedings.

The session again was held in the mayor's court room which was too small to accommodate the crowd. Work on the fire station is still in progress and it is possible that the first December meeting will be held in the old quarters, now being used as sleeping apartments by Central station firemen while repairs are in progress. Steel was put into position yesterday and with good weather the brick work will be completed this week.

Clerk Woodward by mistake read the minutes of the meeting of October 21 and had to read through the report of November 12.

The street committee asked for further time to consider petitions on the proposed change of the name of German street. It suggested that the name be American street or Liberty street. It recommended that the new street just north of National Drive be named Calhoun street in honor of former owners.

City Engineer Wells reported that the city was unable to secure crushed limestone owing to the embargo on shipment of road building materials. The stone was to be used for repaving National Drive. The engineer said the road would be rebuilt with bed gravel, rolled as macadam roads are rolled. The engineer also reported that H. B. Cohen Company was building a structure over the gasoline and oil pumps in front of its property on East Main street without authority. The law committee got the report.

Residents on Baker street petitioned council to change the name to National Drive. The street committee got the petition. The Romanian Greek Orthodox church, owning property on German street presented a petition asking that the name of the street be changed to anything else but German street. It was referred to the street committee.

Employees of the light and water plant asked for an increase in salary. Councilman Keyes announced that employees of the city engineer's department had handed him a petition for an increase but that he had forgotten to bring it with him.

Auditor Dodd reported that he had ordered all city departments to make an inventory of all personal property December 31st.

Councilman Knauer introduced an ordinance to repeal one authorizing the sinking fund trustees to pay the clerk of the board \$500 a year. Examiner Heck advised council that the auditor could not serve in the capacity of clerk, according to an opinion of the attorney general. The ordinance was passed under suspension of rules.

Another ordinance by Mr. Knauer increasing the salary of the auditor to \$2100 and the treasurer to \$780 yearly was passed on suspension of rules. The present salary for the auditor is \$1800 and the treasurer \$600. Mr. Knauer told council that it cost \$165 yearly for surety bond which Mr. Knauer thought the city should pay. City Auditor Dodd told council that the auditor's salary had not been increased since 1909. He "hoped the measure would receive favorable consideration."

Councilman Alexander thought the council should proceed slowly in war time, in the matter of salary increases. The ordinance was passed with one dissenting vote, Mr. Stasel. Councilman Alexander's ordinance to prevent the construction of the Calhoun street car line was passed on suspension of rules.

Mr. Keyes' ordinance increasing the salaries of the police department was given its first reading. Under the ordinance the chief will receive \$120 month; captain, \$110; station

OHIO COAL WILL REMAIN IN STATE; RELIEF IN SIGHT

Washington, Nov. 20.—Immediate release of all coal mined in Ohio and Pennsylvania for use within those states will be arranged at a conference to be held today between Dr. Harry A. Garfield, United States fuel administrator, C. Baird, commissioner of the Lake Erie Coal Exchange, and W. H. Grovermann, who has had charge of coal distribution from the upper lake ports.

Train loads of coal consigned to the Lake Erie ports for transshipment to Duluth and other Northwest cities by water will be diverted to

cities and towns in Ohio and Pennsylvania that have been going on short rations for months in order than an all-winter's supply might be transported to Minnesota, North and South Dakota and Wisconsin before the close of lake navigation.

When Dr. Garfield was asked whether the fuel administration had accomplished its announced purpose of putting 10 per cent more coal in the Northwest states before the close of navigation this year than was delivered there before that time last year, he exclaimed: "We are ahead of the game."

They were contemplating the wonders of Niagara Falls. "It seems a pity to see all this water going to waste," remarked the clerical man in the white tie. "Why? What good is it?" demanded the man with the impressionistic nose.

house keeper, \$100; officers \$90 for the first year, \$95 the second year, and \$100 the third year; chauffeurs, \$100 and night telephone operator, \$60. The measure was given one reading.

The ordinance changing the name of Pataskala street to National Drive was given one reading.

The ordinance on second reading for the Ash street and Woods avenue sewer was passed on suspension of rules.

The ordinance increasing the salary of the firemen was given its second reading.

Councilman Knauer offered a resolution ordering the engineer to prepare new plans for the repaving and resurfacing of Church street. It was adopted on suspension of rules.

Councilman Knauer's resolution ordering an inventory of all city property was adopted on suspension of rules.

With such a representative group of new city officials, council took advantage of the opportunity to hear extracts from Examiner Heck's report. City Auditor Dodd read the report dealing with city council's work which was listened to with great interest.

New officers were called upon for remarks. Mayor-elect Atherton stated he was pleased to watch the proceedings. J. Phil Baker, J. R. Ashbrook, Peter Faust, President-elect Williams, Solicitor-elect Ashcraft, Charles Redman, T. A. Bazler, S. O. Riggs, Lester Newkirk all made short talks.

PATRIOTIC NIGHT IN LICKING CO.; MANY MEETINGS ARRANGED

"Patriotic Night" in Licking county tomorrow evening is to see the greatest concerted patriotic movement Licking county has ever known, when twenty-seven different meetings are to be held throughout the county.

Armor Against Wet Winter Winds

Wet, windy winds play havoc with the tender skin of the face and hands, rendering them chafed, red and raw. The daily application of Sherrin's Cream of Quinacresol will prove a certain protection to the skin, keeping the complexion clear and the hands white and soft. Good appearance is a personal asset—cultivate it. Price 35c. (Adv)

COUNTY RECORDER O. C. MARTIN IS DEAD HAD LONG ILLNESS

O. Carl Martin, county recorder, after an illness of about four weeks, died at his home in St. Louisville, at 5:45 Monday evening, making the second incumbent in that office to die within a few months. Mr. Martin, while finishing the second

O. C. MARTIN.

term in office was appointed to fill the term of Frank B. Dudgeon, who died suddenly after being elected and before he had taken the office. The deceased had been in failing health for the past year. He was born December 17, 1861, in Eden township, near St. Louisville. Early in life he taught school in the township schools, but for the past twenty-five years his work has been in Newark.

He served two years as deputy sheriff and was deputy on numerous occasions in the office of the probate judge and clerks of the courts. He served two terms as county recorder and upon the death of Mr. Dudgeon was re-appointed, taking his third term on September 5.

He is survived by his wife and one daughter, Grace Martin, aged 10 years. Also one sister, Mrs. F. D. Harris of St. Louisville and a brother, Lee Martin of Newark.

Mr. Martin was a member of Newark Lodge, No. 13, Knights of Pythias, and of the Modern Woodmen of America.

The funeral services will be held on Thursday afternoon at 2 o'clock at the home in St. Louisville, Rev. E. L. Spade of Carey, O., officiating. Interment will be made in the Evans cemetery near St. Louisville.

FINLAND STRIKE ENDS.

Associated Press Telegram Helsinki, Finland, Nov. 19. (Monday).—The general strike which has been in progress in Finland for several days will be ended tomorrow. The Red Guard will remain under arms until all the demands of the workmen have been satisfied. Disarmament of the white guard by workmen has resulted in a few clashes, in which nine persons have lost their lives.
